

Do you Donate balloons or offer discounts to not-for-profit organisations?

We receive requests to donate balloons quite often. Each year, we will grant one charity organization this request and donate balloons for their event. To be eligible, non-profit organizations may submit requests, in writing and on letterhead, in the month of December. We will choose a charity to donate balloons to for the following year.

While we can't donate balloons to every worthy organization (we wish we could!), we will offer a 10% discount off your total for your event and if it is within the local area, we will waive the setup charges!
